He has contributed to the Dictionary of National Biography and several other anthologies. He is published in many countries and in more than a dozen languages.

Michael's Latest Book

"Michael Coren has written a case for the Catholic faith that is the rarest kind of book: wonderfully readable, intellectually vigorous and stylish in its force. His chapter on Church history is worth the price alone; but the whole text is alive with fidelity, penetrating intelligence and the irony of our times, expressed with consummate skill. Highly recommended."

Charles Chaput,
Archbishop of Denver
